OUTLOOK

A lot of Coffee County farmers are making plans for next year. I always like to give some of the outlook information as prepared by our people at Auburn. Here is the latest as prepared by our Farm Management Specialist at Auburn.

Peas: Prices received for peas in 1973 will most likely follow those established this year, but if economic conditions change, a slight increase can be expected.

Fruits and Vegetables: Assuming normal crop volumes and seasonal seasonal spreads in harvest and marketing, 1973 prices of fruit and vegetables should continue to slightly increase.

Beef Cattle: Cow calf operators can look forward to favorable returns in 1973. Moderate profits appear likely for all segments of cattle industry with strong pressure upon finishing operation by prices paid for feeder cattle.

Swine: Continued growth in demand for pork, feeding prices to remain above \$22.00 per hundredweight for first half of 1973.

Forestry: Outlook for forest products looks real bright as consumption continues to grow. Slight upward shift in prices expected for 1973.

FORESTRY DEMONSTRATION: A lot of folks don't know it but timber prices have increased dramatically in the past year. This is particularly true of sawtimber. Whereas a year or so ago pine stumpage was bringing about \$40 a thousand it is bringing \$70 a thousand at the present time. I talked with Extension Forester Larkin Wade recently about publishing timber prices much the same as we do for hogs, beef cattle, poultry, cotton and other commodities. Perhaps there is a chance that this can be done on a statewide basis.

The Forestry Demonstration on Mrs. Shealy's farm near Damascus worked out fine Friday. Approximately 75 people attended. There were great interest in the land-clearing demonstration, the land-seeding program and other things that Mrs. Shealy had going on her property. I hope that in the immediate years ahead Coffee County landowners can make their forest lands profitable. This increase in the price of stumpage for sawtimber will certainly help get people interested in management practices.

AGRI-BUSINESS OPPORTUNITIES: Our high school are teaching course in agribusiness and have been for a number of years. The Enterprise State Junior College, under the leadership of Glen Spivey the Agribusiness Education Leader, will offer a two year course in agribusiness education. Industry is looking for young men who are experienced and trained in various phases of servicing and selling of agriculture.

ASC Ballots Must Be Returned By Friday

Coffee County farmers are in the process of voting their choice for ASC Community Committee. Rollan Day, chairman of the County Committee, said ballots were mailed on November 17 and they must be marked and returned to the ASC office by December 1 to be counted.

The candidates receiving the greatest number of votes will become chairman, second highest, vice-chairman, third, fourth, regular member, and fourth and fifth highest become first and second alternates.

Committees are elected for one-year terms, beginning January 1, Day said. "It is very important that farmers elect representatives and qualified farmer-neighbors for community committee posts. These committees elect the County ASC Committee and choose its officers. They also help keep their communities informed on low individual farm operations will be affected by farm programs under the Community Committee. Major ASC programs in this county are: Rural, Environmental Assistance Program, Peanut Marketing Quota, Wheat, Feed Grain and Cotton Programs.

Ballots should be voted, sealed inside the plain envelope, inserted in the envelope addressed to the County office, and mailed or carried to the County ASC office in New Brockton.

A unit of the Brundage Rescue Squad rushed Maddox and a passenger to the Dale County Hospital in Ozark and he died as he was being prepared for transfer to a specialist in Dothan. The passenger, Whom Maddox was taking home, was treated for minor injuries and released from the hospital.

Witnesses report that Maddox walked from where he was thrown out of the car to where it had come to rest and started talking to his passenger and then fell to the ground. He reportedly suffered extensive head injuries when he was thrown from the car.

City Council Considering Use Tax

The Elba City Council is considering passing a city ordinance imposing a use tax on items purchased out of Elba and brought into town for sale.

The sample ordinance presented to the council reads to include any purchase (TV, car, etc.) by individuals but discussion with individual councilmen reveals that the intent of the ordinance is to remove the disadvantage out-of-town sellers have over local merchants in the sale of merchandise consumed by local business and industry.

The sample ordinance currently being studied by the councilmen calls for a 1% figure as a use tax, an amount equal to the current Elba sales tax. As it currently reads, no item subject to the Elba sales tax would be exempt from the use tax. It includes several variations of the 1% figure including a 1/2 cent on police jurisdiction sales and down to 1/8 cent on certain type sales.

Full information and application forms may be obtained from the State Personnel Department at Montgomery or from any local office of the State Employment Service. Application should be filed by December 11, 1972. The examination for Correctional Lieutenant (\$6,019 - \$7,878) was announced with a closing date of November 27, 1972.

3 Injured In 1 Car Accident

Speed was listed as the cause of this one car accident last Friday morning. Three young men were in the car when it overturned near Buck's Mill Creek on the Elba-Samson highway. Driver of the car was Larry Rowe, age 19, of Route 4, Elba. The car was a 1964 Pontiac LeMans.

One passenger suffered a broken collarbone. The others had only cuts and bruises.

First reports indicated one of the passengers was pinned under the car but he had been pulled free when the Elba Rescue Squad arrived on the scene.

Investigating, the accident was Trooper Ronnie Whitworth, Elba policeman Pete Daugherty, Deputy sheriffs Neil Grantham and Don Rayford.

Coffee County Troopers investigated a car crash this Friday weekend with 2 injuries and 1 fatalities. So far this year 10 persons have been killed in motor vehicle traffic accidents in this county as compared with 8 killed during the same period last year.

Social Security News

According to Ted A. Gamble, District Manager of the Dothan Social Security Office, there has been changes in the social security program that may be of particular importance to widows and widowers entitled to social security benefits.

Beginning January 1973 a widow (or dependent widower) who started getting a widow's benefit at age 65 or later will get 100% of what her husband's benefit would have been (before the maximum was \$256), the required waiting period for a disabled widow or widower is reduced to 5 months instead of 6 months required by present law, effective July 1973. Medicare coverage will be extended to include disabled widows and widowers who have been entitled to these benefits for 24 consecutive calendar months. A benefit may be paid to a dependent widower if he has attained age 60 (rather than age 62) even though not under a disability.

Gamble said that additional details will be furnished as they are received. For more information on the new law or other social security programs, contact the office in Dothan. You may wish to call for dialing the operator and asking for WX-6200.

THE WHITE HOUSE WASHINGTON

November 20, 1972

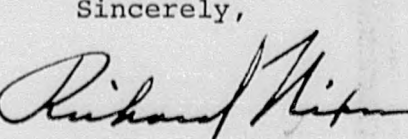

Dear Mr. Cox:

As I look back on the results of November 7, I realize that such an overwhelming victory would not have been possible without the strong support we had from editorial endorsements across the nation.

I cannot find words adequate to express my appreciation. I can assure you, however, that I shall do everything I can over the next four years to make a record all Americans, regardless of party, can be proud of as we celebrate our 200th Birthday.

With best wishes,

Sincerely,

Unemployment Continues As Major Unsolved Problem

Continuing lack of jobs for millions of Americans who want to work is a problem which has plagued our Nation for the past three years, and one which must receive immediate priority attention.

Although the economic news in recent months has been favorable, with inflation slowed and other factors stabilized, there has not been a corresponding improvement in the unemployment rate, which has been fluctuating between 5-1/2 and 6 percent of the total work force.

In plain numbers this means that there are almost 5 million people unemployed in the United States.

If we are to remain in world leadership in competition against other nations, how do we compare with them in use of our greatest single resource, which is our human resources?

While our unemployment rate averaged 5.6 percent in 1971, for example, the rate in Japan was only 1.4 percent. In France it was 2.7, 3.4 percent in Italy; and in West Germany the unemployment rate was less than 1 percent.

I am deeply concerned that there has been no coordinated national effort to solve our unemployment problem. The President has managed to surmount his spending problems at least temporarily by creating what he calls a "full employment" budget, which would be if unemployment was even at a 3 or 4 percent level.

But unemployment can be solved simply by juggling the records or the figures. Just that a grateful nation can tell one that there is no place for him in a peacetime America.

I just do not accept the proposition that we have almost the greatest differences between our economy and that of West Germany, Japan or France that those countries are able to have less than 3 percent unemployment while we have almost double that rate.

I think that every man and woman who wants to work should be able to work, and that government and business see joint responsibility to establish conditions that will make a full employment economy a reality.

Government can help by making available realistic training programs to fit the requirements of changing job markets, and by continually seeking ways to match our growing population with a growing and vigorous economy by encouraging business to expand the opportunity for sales which will result in more jobs.

On the first Sunday in Advent (December 3rd) gather your family around the wreath and light one purple candle. This signifies the first Sunday of the Advent Season. On the second Sunday (December 10th) light the second candle and add another purple candle. This signifies the second Sunday of the Advent Season. On the third Sunday (December 17th) light the third candle and add another purple candle. This signifies the third Sunday of the Advent Season. On the fourth Sunday (December 24th) light the fourth candle and add another purple candle. This signifies the fourth Sunday of the Advent Season.

During these twenty-three days of preparation use the Advent Wreath as a worship center for family devotions. Gather your family daily and read some verses from the Christmas scriptures in the Gospel of Luke, sing a Christmas carol, and have a prayer.

These experiences of worship with your family will strengthen family ties, will remind us of Christ's coming and will be a real source of inspiration and faith for this wonderful season.

I predict that if you will do these things faithfully this season that you and yours will have the most meaningful Christmas you have experienced. I would welcome hearing your reactions.

Another section of this bill, which did pass, establishes a joint Congressional study and report on the study and improvements in Congressional spending procedures. Such action is long overdue. The committee could start by establishing Congressional overview of the total federal budget. It's hard to believe, but each year Congress acts on over a dozen separate appropriations without knowing, or apparently caring, about the total level of spending and its tax implications.

It is to be hoped that the next Congress will show greater attention to the total effect of its spending actions.

Inflation hasn't changed the price of ashes.

For example, if you bought an \$18,000 home in 1963—today it's worth about \$24,000. Don't be left with a costly pile of ashes.

There is a man at EHS who tries to do his very best. He makes the rules so very strict. But Tom can't obey them neither can Dick. He's very cool until disturbed then he swings his paddle and you really burn. If you don't know who this is break a rule and your business is his.

Twilley - Whitten Wedding Held Nov. 22

In a lovely candlelit ceremony, Miss Joanne Twilley and Mr. Larry Whitten pledged their wedding vows before a large assemblage of friends and relatives on Wednesday evening, November 22 at the New Ebenezer Baptist Church, Rev. Tommy Harrison, performed the double ring ceremony. The bride and groom each took a lit candle and lit the unlighted candle simultaneously, symbolic of their lives now being united as one. They then viewed their individual candles and returned them to the candleabra. Window candles completed the arrangements and all were lit by Byron Grimes and Randy Paul, ushers.

The bride given in marriage by her father, was radiantly lovely in a formal gown of white satin overlaid with organza and imported lace. The round neckline featured scallops of lace with tiny embroidered seed pearls. The tiny fitted waistline fell into a bell shape, slightly gathered long skirt. She wore an orchid corsage.

The bride's honor attendant was Mrs. Nancy Moore, her sister, of Laurel, Miss. She wore a floor length gown of moss green crepe, and carried a bouquet of miniature white carnations mixed with shades of gold and greenery.

Miss Marylin Hatcher was bridesmaid. Her gown was floor length, of gold crepe. She had a corsage identical to that of the bride. Her hair was styled in a short, wavy, blonde. Her head pieces were gold ribbon. Bob Thomas was ring bearer. Serving as best man for the groom was Billy Whitten, brother of the groom. Groomsmen were William Moore.

For her daughter's wedding, Mrs. Twilley chose a coat and dress of navy blue and wore a white orchid. Mrs. Whitten chose a two-piece suit of aqua green and wore a white orchid.

Immediately following the wedding the bride's parents entertained with a reception in the Fellowship Hall of the Church. The color scheme used in the decorations was that of the bride's chosen colors of green and gold.

The bride's table was overlaid with gold cloth topped with lace. The groom's table was overlaid with green covered with lace. The corners were marked with green and gold bows.

The center piece for the table was a three-branched silver candleabra holding three long burning tapers. The three tiered columned wedding cake resting on a mirrored plaque was placed at one end of the table. The cake was embossed with white spun sugar orchids with gold wedding bells nestled in green leaves. The top was adorned with a miniature bride and groom.

The crystal punch bowl surrounded with plumosa fern and gold mums was placed at the other end of the table. Crystal compotes holding mums and nuts completed the table arrangements.

Mrs. Jeal Boland registered the eighty-seven guests. Mrs. Tommy Harrison presented the guests to the receiving line composed of Mrs. Twilley, the bride's mother, Mr. Twilley, bride's father, Mrs. Whitten, mother of the groom, the bride and the groom and the attendants.

The bride, the cake and was assisted in serving by Mrs. Durwood Grimes, Mrs. Edgeridge Twilley, Mrs. Dot Donaldson, Mrs. Fannie Foley, Mrs. Dot Donaldson and Mrs. Lem Grimes.

Following the reception the bride changed into a three-piece navy-blue, double knit suit. The orchid from her corsage completed her attire. After a honeymoon the couple will reside in Valley Park, Mississippi.

Out of community visitors for the wedding were: Mrs. Barbara Browning and children; Mrs. Debra Holloway, Mrs. Miss Marylin Hatcher and children; Mrs. Mildred Whitten, Valley Park, Miss. and Mrs. Woodrow Weeks, Missy and Tony, Beaufort, S.C.; Mr. and Mrs. Williams Moore, Laurel, Miss.; Mrs. Mozelle Maddox, Mrs. Johnnie Blackmon, Mrs. Ora E. Good Ole Days

Uncovered in some old school records in California are the following rules for teachers made by their School Board in the 1880's.

Teachers will each day fill lamps, clean chimneys and trim wicks.

Each teacher will bring a bucket of water and a kettle of coal for the day's session.

To conserve supplies, make your pens carefully. You may whittle nibs for individual tastes of your student.

Men teacher may take one evening a week for courting purposes, or two evenings a week if they attend church regularly.

After 10 hours in school the teachers should spend the remaining time reading the Bible or other good books.

Each teacher who marries or engages in unseemly conduct will be dismissed.

Each teacher should lay aside from each pay a goodly sum of his or her earnings for their declining years so that we will not become a burden on society.

Each teacher who smokes, uses liquor in any form, or gets shaved in a barber shop will give good reason to suspect his worth, intentions, integrity and honesty.

The 8th grade girls who clean the girls' bathroom regularly, Anita, Terri, and Dorothy for undertaking the big job of cleaning up the canteen recently.

Winter Fire Season

Leave any fire set by negligent use of matches, tobacco, or fireworks.

Place any device in the woods with the intent to cause a fire. Remove or deface any warning signs or posted notices.

To burn own land which adjoins lands of another, without notifying the State Forestry Division.

The Local Forestry Commission representative asks the cooperation of residents, and that they know the law and follow the safety rules for burning.

Section 207 says that five days' prior written notice must be given adjoining landowners of intent to burn own lands. Section 31, it is a felony to maliciously burn lands of another.

NOTE: The full text of these statutes can be found in the County Courthouse.

The Local Forestry Commission representative asks the cooperation of residents, and that they know the law and follow the safety rules for burning.

Bows and Boos

Boos To: The entire student body for the courteous attention paid to a recent assembly speaker.

The 8th grade girls who clean the girls' bathroom regularly, Anita, Terri, and Dorothy for undertaking the big job of cleaning up the canteen recently.

Wendy Matthews: "14, it's getting closer to the time I can go to see girls on a car."

Faye Smart: "15, being old enough to be in the 10th grade and having to stay in at recess."

Cheryl Rickett: "16, I don't have to lie about my age to drive my car any more."

Eddie Bell: "20, I can go with 20-year-old women."

Teen Thinkers

QUESTION: What would your choice of colleges be and why?

Edsel Stone: "Alabama, because it's a good college and it has a great football team."

Sue Smith: "Florida State University, because it has a good music conservatory and music is what I plan to study."

Dennis Archie: "Auburn, because it's a nice place and I like the education they offer."

Clifford McClain: "Grabbling College in Louisiana, because it seems to be a great college."

Jimmie Lambert: "Troy State University, because Adams is close by and it's a good school."

Moments for Meditation

And how often times, in our faithless prayers, we acknowledge with shamed surprise,

We have only asked for a dog and a chain.

When we might have had -- open eyes.

Rebel Ritings

LOVE is stronger than a mountain.

Love is deeper than a sea.

Love is what you want to make it.

Love is you and me!

Teresa Baggett 7th grade

Moments for Meditation

Many of us often wonder what our philosophy of life should be. Recently I read an article containing this poem and I found it to sum up my philosophy of life. It was written by an unknown confederate soldier.
